## Weather Resilient Fruit Production Class

Producing fruit in our climate requires more than cold protection. Learn about how to reduce risks and mitigate weather related issues in fruit production.

Agenda:

**Florida Climate Outlook and Forecast** - Dr. Clyde Fraise

**Good Local Forecasts—where to get and how to interpret** - Dr. Young Gu Her

**Weather Risks and Mitigation:**

**Cold** — Dr. Ali Sarkhosh

**Made in the Shade—Helping Fruit Trees Withstand Florida Heat & Drought**—Dr. Chris Vincent

**Hurricanes/Storms** — Dr. Jeff Williamson

**Agricultural Water Policy Services and Cost Share Opportunities** — Jim Fletcher (IFAS), Jody Lee (FDACS)

**Nov. 15, 8 a.m. to 1 p.m.** Includes lunch. \$25 per person. [Register online](#) or contact Juanita with cash or check (made out to University of Florida).

## Advisory Committee

If you would like to be on Juanita's Advisory Committee and advise on what commercial fruit production programs are needed, contact Juanita at 352-516-6486. We meet twice a year over lunch. If you have ideas but no time to join the advisory committee, feel free to contact Juanita to discuss.
